

# OHID

One Health  
International Days

2022<sup>27-29</sup>  
june

**Polytech'Lille, France**

Face-to-face event

---

Participate in this unique international congress, dedicated to "One Health" themes: environmental, plant, animal and human health!

A transdisciplinary and holistic approach that makes it a unique event.

# The program:

---

## MONDAY, JUNE 27:

 **Environnemental Health:** impact of environmental microbiota and ecological imbalance on the quality of soils, waters, arable lands...

 **Plant Health:** microbiotic impacts influencing plant growth, development and elicitation.

## TUESDAY JUNE 28:

 **Animal Health:** impact of nutrients, pre or probiotic foods on animal health.

## WEDNESDAY, JUNE 29:

 **Human Health :** impact of nutrients, foods, pre and probiotics on human health and in particular on chronic pathologies.

### Call for papers

A call for papers (posters and oral conferences) will be launched in January 2022.

All information will be available soon on the website:
